

Calling all Giant Schnauzer owners...

Help our research into canine idiopathic epilepsy

 UNIVERSITY OF
CAMBRIDGE

LINNAEUS

**Do you
have a
Giant
Schnauzer
that:**

...has been diagnosed with
idiopathic epilepsy?

or

...is unaffected by epilepsy AND
over 8 years old?

If so, your participation would greatly help our research. You will also be helping future generations of Giant Schnauzers. For more information, please contact the Canine Genetics Centre at the University of Cambridge:

cgc-epilepsy@vet.cam.ac.uk
